Foreign Periodicals.

Republication of THE LONDON QUARTERLY REVIEW, THE EDINBURGH REVIEW. THE FOREIGN QUARTERLY REVIEW, THE WESTMINSTER REVIEW.

BLACKWOOD'S EDINBURGH MAGAZINE

The above Periodicals are reprinted in New York, immediately on their arrival by the British steamers, in a beautiful clear type, on fine white paper, and are faithful copies of the originals—BLACKWOOD'S MAGAZINE being an exact fac-simile

of the Edinburgh edition.

The wide-spread fame of these splendid Peri odicals renders it needless to say much in their praise. As literary organs, they stand far it ad-vance of any works of a similar stamp now pub-lished, while the political complexion of each is marked by a dignity, candor and forbearance not often found in works of a party character.

often found in works of a party character.

They embrace the views of the three great parties in England--Whig, Tory, and Radical.
"Blackwood" and the "London Quarterly" are "Fory; the "Edinburgh Review," Whig: and the "Westminster," Radical. The "Foreign Quarterly" is purely literary, being devoted principally to criticisms on farcign Continental Works.

The prices of the RE-FRINTS are less than one

third of these of the foreign copies, and while they are equally well got up, they afford all that advantage to the American over the English reader.

Beatson's Tetter and Ringworm Cintment.

A safe and certain cure for Salt Rheum, Tetter, Scald Head, Ringworm, Barber's and Prairie Itch, Mage, Old Sores, &c.
It is highly recommended for open or ulcerated Scrofula and Leprosy. No class of diseases have ever been considered more difficult to cure than those of a cutaneous kind, and it will be conceded by all intelligent and candid physicians, that a knowledge of the nature and successful treatment of them is very limited and imperfect. It is notorious that many of these disorders have generally re-sisted all the ordinary means of cure. Hence the opinion so commonly prevalent, that they are in-curable, and it is probable that before the discov-ery and introduction of Beatson's justly celebra-ted remedy this belief was well founded. But wherever this medicine has been known and used it has shown this opinion to be erroneous—it has demonstrated the certainty of a radical cure in al-most every case. The proprietor, therefore, con-

siders this ointment as a specific for the complaints above enumerated. above enumerated.

This is no 'quack' remedy, but really a certain and speedy cure: it has proved efficacious in every case, without a single exception, for the last three years, and invariably eradicates it in fourteen gists, and dealers in medicines are invited to call and examine our prices.
